

Techivation Releases the M-Exciter

Techivation announces the release of M-Exciter, an innovative harmonic enhancement plug-in designed to add controlled brightness and presence to any mix or master without harshness or distortion. M-Exciter offers a natural musical extension of your audio, going beyond what is possible with simple saturation or EQ.

M-Exciter works by generating new overtones for the fundamental tones in your input audio. While the new harmonic content is based on the full range of your audio, you can precisely target the frequency range where the harmonics are added. The new harmonics are spectrally blended in with perfect phase preservation, ensuring that your transients retain their original punch and impact. And the spectral suppression technology, pioneered in M-Clarity and M-De-Esser, prevents the added high-frequency energy from becoming harsh or overbearing.

M-Exciter key features:

- Harmonic Generation: Creates new overtones from your audio's fundamentals.
- Focused Range: Add harmonics only where you need them.
- Phase Safe: Preserves transients with perfect phase alignment.
- Live Visuals: See input (gold) and added content (green) in real time.
- Tone Shaping: Choose Airy, Warm, or Clear character styles.
- Harshness Control: "Softness" tames brittle or harsh highs.
- Mix Assist: Auto-sets parameters by analysing your track.
- Harmonic Solo: "Diff" mode isolates what's being added.
- Stereo Modes: Left/Right and Mid/Side options + Channel balance.
- Workflow Tools: Includes A/B, presets, undo/redo, and more.

Pricing and availability

Introductory Sale

M-Exciter is now available at techivation.com for an introductory price of 45.00 USD. The regular price will be 90.00 USD after August 20, 2025.

Exclusive Offers

- Customer Loyalty Offers: Owners of Techivation premium plug-ins can purchase M-Exciter for a loyalty price of 35.00 USD.
- Techivation Full Bundle or M-Bundle users can purchase M-Exciter for 25.00 USD to complete their bundle.
- Techivation Full Access users get this plug-in for free.

Techivation M-Exciter can be downloaded in VST, VST3, AU, and AAX formats for major DAWs, including Logic Pro, Cubase, Ableton Live, Pro Tools, FL Studio, Studio One, and more. It is compatible with both Windows and macOS, including native support for Apple M chips.

Free Trial

A fully functional 14-day free trial for M-Exciter is available on the Techivation website, allowing users to explore its full capabilities before making a purchase.

About Techivation

Techivation is a UK-based creator of audio and music technology. Since 2021, the company has been developing easy-to-use, versatile, and practical plug-ins to assist audio and music artists in finding innovative solutions. Techivation is dedicated to producing quality tools that enhance sound, streamline workflow, and empower creativity.
