Techivation Releases T-De-Esser Pro Mk2

Techivation has announced the release of T-De-Esser Pro **Mk2**, an upgraded edition of the company's first premium plug-in originally launched in 2021. T-De-Esser Pro Mk2 builds on the strengths of its predecessor with improved dynamic behaviour, enhanced audio quality, and a redesigned interface for a more intuitive user experience.

T-De-Esser Pro Mk2 is designed to reduce harsh "s" sounds and excessive high-frequency content with surgical precision while maintaining the natural tone and clarity of the original audio. With its zero-latency processing, it has been carefully engineered to perform flawlessly in real-time applications such as studio recording, live performances, and streaming. Its refined control system allows users to tailor the de-essing process with flexibility and transparency, making it an essential tool for vocals, instruments, dialogue, and full mixes.

Key Features of T-De-Esser Pro Mk2:

- Precise de-essing with smooth, transparent results
- Customisable frequency range selection
- Adjustable intensity, attack, release, and sharpness controls
- Realtime waveform display for sidechain monitoring
- Lookahead processing for greater accuracy
- Built-in saturation for tonal shaping
- High-Cut and Make Up gain controls
- Mid/Side and stereo link options
- Internal bypass and scalable UI
- A/B comparison and undo/redo functions
- Preset system for quick access
- And more…

Pricing and Availability

Introductory Sale
T-De-Esser Pro Mk2 is available now at techivation.com for an introductory price of $45 USD. The regular price will be $90 USD after June 30, 2025.

Exclusive Offers
